Any ideas on how to protect my Satis toilet from hacking?

2019/11/27

Hi there, Jerry! The question really looks funny, but we understand your concerns, nobody likes, when somebody messes with your own stuff. But we at jammer-store.com have to admit that there are things, that just not meant to be mixed with electronics and wireless remote controls, that's also true about any kind of home wireless system, especially security. Anyway, we will try to help you. First of all, you should know that your device uses Bluetooth for wireless controls, and Bluetooth is a rather vulnerable data transmission standard, as well as Wi-Fi, which uses the same frequency - 2400 MHz. The problem is that it uses standard 0000 pin code for all devices. That's why you can connect just any kind of Bluetooth controller to your Satis toilet. That's probably how your friends did their pranks. The good news are: you can stop them! In order to do so, you just have to use a simple 2,4 GHz signal blocker to jam any kind of Bluetooth controllers in the area. In that case they won't be able to mess with your stuff anymore! Thank you for your question, I hope, I've managed to help!

mobile phone signal Jammer Buy
